

# Gun & Foamcleaner

## Product description

Gun & Foamcleaner is a ready to use cleaning aerosol can to clean the application gun and remove uncured Soudal PU foams.

## Properties

- Good degreasing and cleaning properties

## Applications

- Removes non-cured PU foam
- Cleans tools such as application gun

## Technical data

Base	Acetone
Consistency	Liquid

*Footnote: Skinning time and curing speed may vary depending on environmental factors such as temperature, moisture, and type of substrates.*

## Application method

- Application method  
Clean the gun internally by screwing the can onto the gun and pulling the trigger several times, keep an interval period of 10 - 15 seconds after each time. Clean the gun externally by using the black adapter. Immediately remove spilled foam with the foam cleaner, cured foam must be removed mechanically. Prior to using the cleaner, test whether surfaces are affected or not. Especially plastics and lacquer or paint layers can be sensitive to this.
- Can temperature  
+5 °C to +30 °C
- Ambient temperature  
+5 °C to +35 °C

## Health- and Safety Recommendations

In case of contact with skin, wash with water and soap.  
In case of contact with eyes, wash immediately with plenty of water.  
Use only in well-ventilated areas.

## Packaging/Logistics

Colour: Colourless

Packaging: 500 ml aerosol

Shelf life: 24 months in unopened packaging in a cool and dry storage place at temperatures between +5°C and +25°C

This technical data sheet replaces all previous versions. The directives contained in this documentation are the result of our experiments and of our experience and have been submitted in good faith. It is general in nature and does not constitute any liability. Because of the diversity of the materials and substrates and the great number of possible applications which are out of our control, we cannot accept any responsibility for the results obtained. Since the design, the quality of the substrate and processing conditions are beyond our control, no liability under this publication is accepted. It is the responsibility of the user to determine by his own tests whether the product is suitable for the application. In every case it is recommended to carry out preliminary experiments. The manufacturer reserves the right to modify products without prior notice.
